## Take Our Survey to Help Improve Transportation to and from Dodger Stadium!

**DEADLINE: MONDAY, JULY 13, 2026**

The City of Los Angeles is conducting a transportation study to identify transportation improvements to increase access to and from Dodger Stadium while reducing impacts on neighboring communities such as Angelino Heights, Chinatown, Echo Park, Elysian Valley, and Lincoln Heights.

This study will look at how people travel by car, rideshare, shuttle, bus, train, bike, or on foot, on both game days and non-game days. The study's findings will inform a series of short- and long-term recommendations grounded in current multimodal traffic patterns and community feedback, including responses from the public survey.

### Get Involved!

A public survey and engagement activities are being conducted to generate community feedback and gain a better understanding of the safety and accessibility concerns for getting to and from Dodger Stadium, while also considering how to lessen the effects on nearby neighborhoods.

## Take Our Survey!

With your meaningful feedback, solutions will be identified to benefit local communities and improve the range of options for accessing Dodger Stadium. **Complete the survey by Monday, July 13, 2026, for a chance to win a \$50 gift card!**
