FOR IMMEDIATE RELEASE

### LADOT ATSAC CENTER MEDIA AVAILABILITY FOR JAMZILLA FEBRUARY 11

**WHAT:** The Los Angeles Department of Transportation (LADOT) is preparing for the February 14-18 “Jamzilla,” the closure of the Northbound lanes of the I-405 freeway in the Sepulveda Pass. To support this event, LADOT will provide a number of different resources including deploying over 30 traffic officers to manage street closures, adjust signal timing, and monitor traffic conditions at intersections throughout the closure. This monitoring of events will be conducted from the city’s centralized state of the art traffic management center known as the Automated Traffic Surveillance and Control (ATSAC) center. To better display the center visually, LADOT will be hosting a media availability event. During the hours specified below, the ATSAC traffic control center will be open to the media to film footage and demonstrate the purpose of the ATSAC center as it manages traffic throughout the city as well as for this special event. Further, engineers and traffic officers will be available to answer questions about LADOT’s role in the upcoming closure. Please see information below to participate:

**WHEN:** Tuesday, February 11, 2014, 9AM-11AM

**WHERE:** 200 N. Main Street, Los Angeles 90012

- Bring Photo ID

**RSVP by Monday, February 10 to Jonathan Hui at:**
